- Once More into the Breach: When you break cover and expose yourself to fire to bring the fight to the enemy, mark xp.
- Battle tested: You get +1 battle (max +3).
- Comrade in arms: When you help someone who’s rolling and get a hit, they take +2 to their roll instead of +1.
- Eye for Supply: When you scrounge for ammo or weapons, roll+battle instead of roll+lucky.
- Fight back: When you push yourself, roll+battle instead of roll+guts.
- Heavy weapon: Spend 1-supply from the unit surplus to equip a heavy weapon for the session. Flame-thrower, bazooka, heavy MG, mortar, your call.
- Spray & pray: When you provide covering fire, you can spend additional gear 1-for-1 to take +1 to your roll.
- Stone cold: You get 1 grit.
- Section 8: Maybe you have nothing left to live for; maybe you live for battle. When you assault the enemy against a determined foe that outnumbers or outguns you, gain 1 tough and +1 grit.

**LOGISTICS:** Between sessions and when there's downtime, roll+leadership. On a 10+, the unit has surplus. On a 7-9, it has surplus and one trouble (GM picks). On a miss, it's all trouble.

**HARSH LESSONS:** When one (or more) of your soldiers are killed or go critical because of a decision you made, mark xp.

**PULL RANK:** Take +1 to impose your will if you outrank the target and they're in your chain of command.

**FIRE SUPPORT:** When you call in an air-strike, artillery barrage, or naval fire-mission, spend 1-supply from the unit surplus and roll+tactics. On a 10+, the fire support comes through on your command. On a 7-9, the GM chooses one:

- The fire comes through on the target but also hits short, near you. Distribute 4 stress among you and your team.
- The fire comes through but is a bit off-target w/ reduced effect.
- The fire will come through on target, but you'll have to wait for it. On a miss, no fire support is available. Take back your 1-supply.

**TACTICAL SUPPORT:** You can choose to roll+tactics instead of roll+bond when you help someone.

**PLANNING IS EVERYTHING:** When you make a battle plan, roll+tactics. On a hit, give your subordinates orders. If they follow through, they take +1 forward. On a 10+, you take +1 forward to an engagement move or you recover 1-stress.

**MASTER TACTICIAN:** You get +1tactics (max+3)

### MEDIC MOVES

| **MEDIC**: When you attend to a casualty, roll + guts. On a 10+, choose two. On a 7-9, choose one:
| - You get them back in the fight. Mark xp.
| - You stabilize them.
| - You treat their injuries. You do “damage” in reverse. Roll a number of dice equal to your guts and index the VOF table (incidental fire). They recover stress or wounds according to the results. Spend +1 gear to re-roll or improve to direct, or spend +2 gear to improve to concentrated.

| **Battlefield grace**: When you’re attending to a wounded soldier, you and your patient get 1-tough.
| **Inopportune Target**: When you are on the battlefield but do not take direct action against the enemy (e.g. aiding a wounded soldier, scavenging for supplies, etc.), roll + lucky. On a 10+ the enemy are preoccupied with other targets or priorities. On a 7-9, you may still be exposed to enemy fire; but, gain concealment.

| **In Their Time of Need**: When you provide comfort, solace, or sympathy to a wounded or dying person, they recover 1-stress and increase their bond with you by 1. You may increase or decrease your bond with them by 1.
| **Nerves of steel**: You get +1 guts (max +3)

| **Infirmary**: When you tend to your soldiers’ health between sessions or during downtime away from danger, roll + guts. On a 10+, they can heal 1-stress or 1-wound. On a 7-9, they can recover 1-stress or 1-wound. On a miss, they can spend 1-gear, yours or theirs, to recover 1-stress or 1-wound.

### LOADOUT

| **Carbine** (2d close quick), smoke grenades, medic kit.

SERGEANT MOVES  Choose two more

- Inspiriting: You can choose to roll+leadership instead of roll+bond when you help someone. If they succeed, mark xp.
- Battlefield awareness: When you assess a situation, roll+battle instead of roll+tactics. The result applies for everyone on the team.
- Lead the way: When you’re leading a team and you have to push yourself or attempt a dangerous combat action, roll+leadership.
- Look out!: When a nearby teammate takes damage, you may take up to 2 of the stress or wounds they suffered on yourself instead.
- Natural leader: You get +1leadership (max+3).
- Not as bad as it looked: After a battle, recover 1-stress or 1-wound.
- Veteran instincts: When you’ve assessed a situation and you’re acting on the GM’s answer, take +1 to rolls and do +1d to targets.
- Form Up On Me: When you rally the troops, you get +1 hold, even on a miss.
- Not my first rodeo: You get 1-grit.

LOADOUT  Choose one

- Battle Rifle (3d near/far), frag grenades, smoke grenades, sidearm (2d tight quick).

- **Angel of death**: When you’re front and center carrying the fight to the enemy, everyone on your team who can see you gets +1 grip.
- **Close quarters battle**: When you fight at tight or close range, do +1d.
- **Improvise. Adapt. Overcome**: When you have time and materials to improvise a solution and roll combat action, spend 1-gear and take +1 to the roll.
- **Explosives expert**: When you detonate an explosive you set up, spend 1-gear and roll +tactics. On a 10+, it works just as you planned. On a 7-9, it works, yes, but the GM will introduce some hitch, delay, or complication right now.
- **Icewater**: You get 1-grit.

**CHECKLIST**

**SNIPER MOVES**

- **One shot, one kill:** When you have time to carefully aim at a human target, roll +tactics. On a hit, you eliminate the target. On a 7-9, the enemy has a good idea where the shot came from; GM chooses: you are pinpointed, you are out-flanked, or you are hunted. When you eliminate a high-value target, mark xp.
- **Camouflage:** When you hide from the enemy, roll +tactics. On a hit, you evade detection. On a 10+, you also recover 1-stress.
- **Deadly Aim:** When you attack a human target with a rifle, the default volume of fire is concentrated instead of direct.
- **Advanced Marksmanship:** At far and extreme weapon range, you add the quick tag to any precision rifle or battle rifle you operate.
- **Forward Observer:** When you observe the enemy from a concealed position and report their movements and disposition up the chain of command, roll +tactics. On a 10+, choose two. On a 7-9, choose one. Your unit gets:
  - Intelligence: gain +Intel.
  - Tactical initiative: +1 forward to an engagement move.
  - Target coordinates: +1 forward to fire support Officer move.
- **Spotter:** When your spotter has eyes on and you hit a target, take +1 ongoing to follow-up shots against the same target or nearby targets.

**LOADOUT**

- **Precision Rifle** (3d far/ex reload), sidearm (2d tight quick).
- **Battle Rifle** (3d near/far), sidearm (2d tight quick).

Also: Ghillie suit, ammo, canteen, backpack, combat knife (2d tight), barter worth 3-smokes, 1-personal item (detail).

**OTHER EQUIPMENT AND SPOILS OF WAR**
To create your operator, choose rank, name, profile, background, stats, moves, and loadout. Assign bonds (+2, +1, -1) with other PCs and NPCs.
**COMBAT MOVES**

**ATTACK**
When you **attack the enemy** or **suffer an attack**, roll dice on the VOF table to determine its effects (based on the weapon and the volume of fire—incidental, direct, or concentrated). The GM also assigns concealment (reduces VOF by one step) and cover (reduces damage dice 1- for-1) as established.

**ASSAULT**
+**BATTLE**
When you **assault the enemy** to seize territory or gain a tactical advantage, spend 1- gear and roll+ battle. On a hit, you hammer the enemy with your weapon and seize contested ground under enemy fire as established. **On a 10+**, GM decides if you push them back, force them to surrender, or if you gain an overlooking or flanking position.

**COVERING FIRE**
+**BATTLE**
When you **provide covering fire**, spend 1- gear and roll+ battle. On a hit, you rake the enemy’s position with fire, giving friendly troops an opportunity; but, your VOF is reduced by one step. GM chooses: the enemy is suppressed or the enemy is pinned but finds cover and/or concealment. **On a 10+**, you also give the allies you cover +1forward.

**HIT THE DECK**
+**GUTS**
When you come under fire and **hit the deck**, roll+ guts. On a hit, you scramble to cover and/or concealment, as established—apply them to whatever attack you’re facing now; but you’re also pinned. **On a 10+**, you aren’t pinned, just suppressed.

**PUSH YOURSELF**
+**GUTS**
When you need to **push yourself** through physical hardship, emotional trauma, or enemy fire, roll+ guts. **On a 10+**, you keep calm and carry on. On a 7-9, you push through it; but you avoid a direct, honorable, or all-in confrontation with the problem at hand. Say how and why you take it slow, keep your head down, pass the buck, or cover your ass. GM says what it costs you: time, trouble, respect, stress, etc.

**COMBAT ACTION**
+**BATTLE OR**
+**TACTICS**
When you **attempt a dangerous combat action**, say what you’re doing and roll. If you do it... ...by brute force, violence, or aggression, + battle. ...by observation, wit, or maneuvering, + tactics. ...by sheer nerve or luck, + luck. On a hit, you do it, taking fire as established. On a 7-9, also, you’re in a tough spot now. The GM will offer you a worse outcome, hard bargain, or ugly choice—concerning gear, stress, wounds, allies, exposure, opportunity, etc.

**SUPPORT MOVES**

**ASSESS**
+**TACTICS**
When you **assess the situation**, ask a question about what the fuck is going on and roll+ tactics. On a 10+, the GM will answer generously, including a few follow-up questions. **On a 7-9**, the GM will give you a straightforward answer. **On a 6-**, the GM will tell you something true, but incomplete.

**RALLY**
+**LEADERSHIP**
When you **rally the troops before action**, roll+ leadership. **On a 10+**, hold 3. On a 7-9, hold 1. During the execution of the action, spend your hold 1-for-1 for you or a member of your team:

- Keep your head down! Get 1-tough.
- You can do this! Get +1 grit.
- Short, controlled bursts! Recover 1-gear.

**HELP**
+**BOND**
When you **help someone who’s rolling**, roll+ bond. On a hit, you give them +1. On a 7-9, also, you’re exposed to danger, retribution, or cost. When you **help someone who’s in trouble**, roll+ bond and mark xp. On a hit, they can clear a condition, temporarily stabilize, or recover 1-stress. If you ignore a comrade who needs help, take stress equal to your bond and you both reset to 1-stress.

**IN TROUBLE, MARK XP**

**LIBERTY MOVES**

**BLOW OFF STEAM**
+**SMOKES SPENT (0-3)**
When you use your downtime to blow off some steam, roll+ smokes spent (0-3). **On a 10+**, choose two:

- Improve a bond by +1. They can do the same.
- You recuperate. Heal 1-wound.

**On a miss**, you gain little comfort; but, nothing terrible happens.

**SCROUNGE**
+**LUCKY**
When you **scrounge for spoils**, roll+ lucky. On a hit, you find gear or barter items worth smokes, depending on circumstances (usually 1-3). Or, if you’re scrounging an enemy position for intelligence, you find intel. **On a 10+**, choose two:

- You find it quickly.
- You find it without trouble.
- You hit the jackpot. 6-gear/smokes or major intel.

**RESUPPLY**
When you **resupply from the unit reserves**, distribute up to 6-gear between yourself and other soldiers and remove 1-supply from the unit stocks. When you consolidate, remove 6-gear and increase your unit reserves by 1-supply.

**PERIPHERAL MOVES**

**WILL**
+**LEADERSHIP**
When you impose your will, roll+ leadership. On a hit, they have to choose: obey your command or suffer 1-stress. **On a 10+**, it’s 2-stress instead.

**PETITION**
+**LEADERSHIP OR SMOKES SPENT (1-3)**
When you petition up the chain of command, roll+leadership or smokes spent (1-3). On a hit, you find a contact who will try to make it happen if it’s at all reasonable. **On a 7-9**, the GM chooses a compromise:

- You get something close.
- You have to burn that bridge.
- You have to fuck someone over.
- You owe something in return.

**RECOVERY & HEALING**
When you recover a wound or stress, erase a mark in one of the boxes to the left of the line. When you heal a wound or stress, erase a mark from any box. When you have 3+ wounds or 4+ stress, you have the critical condition, and you’ll get worse until you’re stabilized and the condition is removed (see the help or medic! move).

**NPC ACTION**
+**OP**
When your fellow NPC soldiers take independent action, roll+operational effectiveness (op). On a hit, they do it to the best of their ability. **On a 7-9**, there’s an additional cost; men, materiel, morale, or a mix (GM roll on VOF table for results, see page EW2).

**ATTACK A VEHICLE**
+**BATTLE**
When you **attack a vehicle** with an AP weapon, roll+ battle. On a hit, damage the vehicle as established. For each wound, inflict a major condition. For each stress, inflict a minor condition. If a vehicle takes 3 or more major conditions, it is destroyed. If it takes 3 or more minor conditions, it is disabled until repaired.

Subtract vehicle armor from wounds taken first, then delay if any remains. Vehicle crew takes damage as established.

**MAJOR**: Out of control, burning, stuck, system destroyed (detail), blind. **MINOR**: Slowed, wild, smoking, system damaged (detail), leaking.

**END OF SESSION CHECKLIST**
At the end of the session, each player should double-check the xp move for their playbook in case they forgot to mark xp for it during play.

In addition, check each of the following:

- Completed mission objective (1 xp)
- Valor beyond the call of duty (3 xp)
- PC died (mark improvement on next character)
**ENGAGEMENT MOVE**

When you begin a new engagement, roll + operational effectiveness (OP). On a 1+ roll, choose two. On a 7-9, choose one:
- You seize the initiative. You act while the enemy must react.
- You maintain unit cohesion. Your forces are positioned where you want them and are ready for immediate action.
- You gain a tactical advantage: establish a superior position, found cover/concealment, identify key enemy targets, etc. as established.

This move sets the stage for the beginning of the action, so you can skip lots of planning (see GM2).

If VOF would increase past concentrated, add +1d instead. If VOF would decrease below incidental, subtract 1d instead. For any effective attack, the minimum VOF is 1d incidental.

**FORCE PARITY:** When a larger force attacks a smaller force, increase VOF by one, and vice versa.

**UNIT MANEUVERS:** When NPC units maneuver to engage the enemy and/or seize objectives, roll damage on the VOF table to see how they fare. Stress results indicate loss of morale, materiel/supply issues, delays, or confusion. Wound results indicate casualties suffered.

Begin with 3d direct fire, then increase/decrease damage and VOF depending on the strength of the opposition, situational factors, and cohesion of support/leadership.

By rolling VOF results for two opposed units, the GM can quickly determine results for off-screen engagements.

**DEFENSIVE FACTORS**

- **Cover:** Removes damage dice from an attack before the roll, 1-for-1.
  - 1-cover: A ditch, a low wall, a window or doorway, rubble
  - 2-cover: A trench, sandbags, inside a building
  - 3-cover: A bunker
- **Concealment:** Reduce volume of fire by one (into and out of).

**Movement:** Reduce volume of fire by one if the attacker or the target is moving quickly (relative to the situation at hand).

**Tough:** Durability, either natural or from body armor. Reduces wounds taken, 1-for-1.

**Grit:** Mental fortitude. Reduces stress taken, 1-for-1.

**CONDITIONS**

- **Criticals:** When you have 3+ wounds or 4+ stress, you have the critical condition. You’ll get worse until you’re stabilized and the condition is removed (see the help or medic move).
- **Suppressed:** Your volume of fire is reduced by 1. If you’re suppressed again while you have this condition, you’re pinned.
- **Pinned:** VOF reduced further by 1 and you can’t move from your position. If you’re pinned and then suppressed, continue to reduce VOF.

You can push yourself to overcome the effects of a condition. The help move can be used to remove a teammate’s condition.

Distances are in yards. When you’re attacking outside the optimal range(s) of your weapon, take -1d per increment.

**WEAPON TAGS**

- #d: No. of damage dice rolled.
- AP: Armor penetrating. Use the attack a vehicle move to engage armored vehicles instead of combat action.
- Area: The weapon inflicts harm on everyone in its area of effect (contrast w/ messy).
- Autofire: Spend 1-gear to make an area attack or do +1 VOF to a small group of targets (contrast w/ spray).
- Breach: This weapon knocks down doors, punches holes through walls, and may reduce cover.
- Burn: The target of this attack is set ablaze and remains on fire. Damage is dealt continuously until the fuel is exhausted or the fire is extinguished.
- Crew: The weapon requires the specified number of crew to operate or you take -1d when using it.
- Expel: The weapon is removed after one use.

**WEAPONS**

- **Mortar, Light** (4d ex messy indirect 2-crew setup reload ordnance)
  - A portable, short-range artillery piece.

- **Mortar, Heavy** (5d ex messy indirect 3-crew setup reload ordnance)

**UNUSUAL WEAPONS**

- **Molotov Cocktail** (3d tight messy burn expend)
  - Small, shrapnel-spewing bomb that’s buried in the ground. Detonates on contact.

- **Satchel Charge** (5d AP tight messy breach expend)
  - A heavy, hand-carried bag filled with high explosives, operated with a time delay fuse.

- **Anti-Personnel Mine** (4d tight messy expend)
  - A glass bottle filled with gasoline, stuffed with a rag and set alight.

- **Anti-Vehicle Mine** (5d HEAT AP tight messy expend)
  - Large, high-explosive armor-piercing bomb that’s buried in the ground. Detonates on contact.
NPCs

NPC enemies don’t have separate stress and wounds damage tracks. They just have one track: strength. When an NPC unit runs out of strength, it can no longer fight. Apply both stress and wounds inflicted to the strength damage track (so there’s no need to roll damage when NPCs take direct fire, unless you need the added detail).

An NPC unit has 3-strength. 2 damage will put it down, and 3 will take it out. A unit can represent a single soldier, a fireteam, a squad, a platoon, etc. depending on the size of the engagement.

**Vehicles**

Vehicle armor resists all small arms attacks. Only weapons with the AP tag can harm an armored vehicle. Armor=0 means the vehicle does have small-arms resistant armor, but it is thin and vulnerable to AP attacks.

**Tank, Heavy**

- Main Gun (10d AP ordnance loud messy far/ex 2-crew)

**GM Moves**

**General**

- Immure them in the chaos of war.
- Announce impending danger.
- **Inflict fire** (as established).
- Tell them the possible consequences and ask.
- Offer an opportunity, with or without a cost.
- Separate them.
- Put them in a tough spot.
- Trade harm for harm (as established).
- Introduce news from home or other fronts.
- Give them downtime.
- Consume resources (gear, supply).
- Remember: gear can fail.
- Corner them. Capture someone.
- Make them buy it (supply, gear, smokes).
- Turn their move back on them.
- Show the consequences.
- Make a battle move.
- Make an enemy move.
- Advance a countdown clock.
- After every move: “What do you do?”

**Battle**

- Reveal a dangerous opportunity.
- Reveal hidden units.
- Artillery, mortars, snipers.
- Divert, subvert, or destroy their support resources.
- Introduce new, conflicting, or confusing orders from the players’ commanders.
- Remember: gear can fail.
- Fog of War.

**Terrain**

- Ambush
- Exposure
- Hampered mobility
- Limited visibility
- Lost

**Enemy**

- Hit them where they’re weak.
- Eliminate serious threats.
- Recon and gather intel.
- Fortify your position.
- Steal or destroy resources.
- Pin them down. Suppress them.
- Seize superior positions.
- Degrade / destroy their cover.
- Use one team to support another.
- Bring in reinforcements.
- Conceal movements, use smoke.
- Fall back, regroup, counter-attack.

**Other**

- Make maps (prepared and on-the-fly)
- Use the whole time-scale: seconds, minutes, hours, days, weeks

THE REGIMENT: GM TOOLKIT

BATTLE PLANS

RECON PATROL

GOAL: To gather intel with minimal engagement.

METHODS
- Assemble teams: 1) point/scouts, 2) primary element, 3) support element, 4) security element.
- Establish patrol route and duration.
- Avoid direct enemy engagement.
- Gather intel and return to base.

CONSIDERATIONS
- Positions and status of enemy units.
- Terrain factors.

COMBAT PATROL

GOAL: To engage the enemy with a raiding force but not hold ground.

METHODS
- Assemble teams: 1) point/scouts, 2) primary element, 3) support element, 4) security element.
- Establish patrol route and duration.
- Patrol to contact.
- Eliminate or harass enemy units and withdraw before they can mount a counter attack.

CONSIDERATIONS
- Positions and status of enemy units.
- Terrain factors.

FIRE & MANEUVER

GOAL: Outflank and destroy the enemy.

METHODS
- Overwatch element establishes base of fire.
- Assault element maneuvers to flanking position.
- Assault element destroys enemy element.

CONSIDERATIONS
- Positions and status of enemy and friendly units.
- Terrain factors.
- Elements may reverse roles and continue action to “bound” forward.

AMBUSH

GOAL: To attack the enemy using concealment and surprise.

METHODS
- Assemble teams: 1) point/scouts, 2) primary element, 3) support element, 4) security element.
- Determine ambush point and fields of fire.

CONSIDERATIONS
- Enemy strength and approach vectors.
- Terrain factors.

HOLD GROUND

GOAL: To repel an enemy’s attempt to seize territory.

METHODS
- Assemble teams: 1) security/perimeter, 2) HQ/command position, 3) fire teams, 4) support/medical/mortar teams, if available.
- Occupy and fortify defensive positions.

CONSIDERATIONS
- Defensive factors of position(s) and terrain.
- Friendly support elements.
- Enemy strength and approach vectors.

Pincer

GOAL: To cut off enemy from retreat and support.

METHODS
- Assemble left and right blocking elements.
- Create opening in center for enemy to advance into.
- Advance and secure left and right blocking positions to cut off the enemy element(s).

CONSIDERATIONS
- Positions and status of enemy units.
- Available resources for blocking elements.
- Terrain factors.

DEFENSE IN DEPTH

GOAL: To fall back and delay an attacker so they lose momentum and are vulnerable to a counter attack.

METHODS
- Establish lines of retreat and rally points.
- Communicate plan to all elements before fallback begins.
- Execute an orderly fighting retreat, maintaining fire on the enemy.

CONSIDERATIONS
- Positions and status of enemy and friendly units.
- Terrain factors.

Infiltration

GOAL: To maneuver through enemy territory without being detected.

METHODS
- Assemble teams: 1) point/scouts, 2) primary element, 3) support element, 4) security element.
- Determine infiltration point and route.
- Avoid detection and maneuver to objective point.

CONSIDERATIONS
- Positions and status of enemy units.
- Terrain factors.

USING BATTLE PLANS

Battle plans are a new thing we’re trying out for Alpha 2.0. They’re the same mechanic as the workspace rules from Apocalypse World.

The idea is to help players and the GM organize the action of the game by offering military objectives in simple packages consisting of goals, methods and considerations. Here’s how it works.

When a player decides to achieve an objective on the battlefield, and isn’t sure how to go about it, show them the battle plans and pick the closest that applies. To achieve the goals, the player (and allies) must execute the methods of the plan. You can judge the ongoing success of the action (and the potential for trouble) by how thoroughly the soldiers achieve the methods of the plan. The considerations of a plan are usually intelligence items that will enhance the execution of the plan or help the soldiers avoid danger. They’re optional but useful components. (The battle plans recon patrol and infiltration are good ways to gather intelligence to inform considerations for other plans.)

As GM, you control the scale of the “camera” in the game. For most battle plans, you will “zoom in” on the combat as the soldiers execute the plan, following them in the moment-by-moment action. Sometimes, though, it makes sense to “zoom out” and deal with the execution of a plan as a simple dice roll. You can use the engage move and the unit maneuvers mechanic (EW2) to handle these situations, which most commonly will involve NPC characters, off-screen.

DON’T GET BOGGED DOWN IN PLANNING!

This is the classic problem with tactical games: given the high stakes of combat, players will (understandably) try to plan for every last contingency, which can lead to sessions that are 3 hours of planning and discussion and one hour of action. I know... I ran other war RPGs for years and this was SOP — which is why The Regiment gives you tools to skip over all that planning and cut right to the beginning of the action. Here’s how you do it.

- Ask the players what their plan is in broad strokes. One or two sentences, tops.
- Try to distill this down to a clear goal. If this goal matches one of the battle plans, you’re all set. If not, modify a plan that’s close, or quickly throw a plan together to fit the goal.
- Use the methods and considerations to ask the players a few key questions about what they want to do.
- Roll the engagement move. The outcome will tell you the starting point of the action. Are the PCs in a good spot? In trouble? Scattered in disarray? Use the outcome of this roll to frame the establishing shot of the movie, so to speak. Tell the players the situation — mix in their POVs as much as you can to immerse them in the circumstances — then ask what they want to do.
- Now you’re down at the moment-to-moment action level! Long, boring planning session skipped.

- **HEADQUARTERS**

- **MORTAR**
- **INFANTRY**

The Regiment has a strength of about 1,000 combat soldiers. It is comprised of a headquarters company, a logistics company, a field hospital company, a mortar battery, and two infantry battalions.

The PCs are soldiers in one of the infantry battalions. The battalion (about 300-600 people) is made up of 3-5 companies (120 people each), which are in turn each made up of 2-5 platoons. A platoon (about 40 people) is lead by a Lieutenant and is made up of 3 squads. All the fighting is done by squads of roughly 13 soldiers each, lead by a sergeant. Squad vs. squad combat is the standard for warfare. Within a squad, the soldiers are divided into 4-man fire teams. The PCs will usually be members of the same fire team. Some fire teams may have specific assignments, such as scouting or machine-gun duty.

### YOUR UNIT

<tbody>
<tr>

</table>

The players should make the regiment and unit choices together, but the Officer player gets final say.

By default, your unit is a platoon of 40 soldiers, under the command of an officer and several NCOs. The PCs will serve within a squad that is part of the unit. Your squad has the same operational effectiveness (OP) as the unit.

[Default: OP=0. Surplus: 3-supply.]

Choose 2 advantages:
- Your unit is especially well-armed. When you attack, spend 1-gear for +1d.
- Your unit contains a number of seasoned veterans. +1 OP.
- Your unit has access to intelligence assets. Add surplus: +intel.
- Your unit has reliable access to materiel. Surplus: +1 supply.
- Your unit has access to vehicle transport, airborne drops, amphibious insertion, etc. Add: +mobility.
- Your unit has a powerful patron higher up the chain of command (a Major at the battalion level or higher). Add: +patron.

And choose 1 drawback:
- Your unit is comprised mainly of new recruits. Trouble: green.
- Your unit is made up of misfits, outcasts, convicts, and cast-offs from other units. Trouble: savages.
- Your unit operates beyond the range of easy re-supply. Supply -1.
- Your unit has vendettas or rivals among the Regiment. Trouble: reprisals.
- Your unit has gone without replacements. Trouble: under-manned.
- Your unit has attracted the unfavorable attention of the regimental or company commander. Trouble: whipping-boys.

### REGIMENT COMMANDER

<table>
<thead>
<tr>
<th>COLONEL</th>
</tr>
</thead>
</table>

The regiment commander embodies the soul of the regiment. Choose two strengths: inspiring, resolute, aggressive, cunning, honorable.

And one weakness: Blind to human suffering, outdated tactics, relying for power, addicted to victory.

### COMPANY COMMANDER

<table>
<thead>
<tr>
<th>CAPTAIN</th>
</tr>
</thead>
</table>

Your platoon reports to the company commander. Choose two strengths: efficient, flexible, organized, experienced, calculating.

And one weakness: fanatical, ambitious, reckless, indecisive, cruel, overconfident, distracted.

**GM:** Deploy the strengths and weaknesses of the commanders especially when the players use the petition up the chain of command move.
